# DIY WEBSITE TUTORIAL SQUARESPACE

Presented By Halee Sprinkle, Czech Yourself Marketing

"Squarespace empowers people with creative ideas to succeed."

# DIY WEBSITE VS. PROFESSIONALLY DEVELOPED

## PROFESSIONAL DEVELOPERS

- PRO: Team of Experts & Possibilities are Limitless!
- *CON*: The costs with this option are often times significant for a small business.
- Local Companies:
  - Slamdot, EPIC Nine Marketing, SiteMakerStudio, Go Big Wheel, Right Click Design

## WORDPRESS

- PRO: Very powerful content management system.
- *PRO*: Thousands of themes available to choose from, lots of customization available.
- CON: Code needed to edit themes or plugins, which makes it better suited for those with at least a little comfort around HTML.

## WEBSITE BUILDERS

- PRO: Easier to use.
- PRO: Website builders include hosting.
- *PRO*: The registration of a domain name is covered, so you don't need to worry about that configuration.
- CON: Less powerful & less customization than WordPress.
- Top Choices:
  - Squarespace, Weebly, Wix

- Drag & drop
- 24/7 Support
- Template options
- DIY Resources

# DOMAINS TEMPLATES INTEGRATIONS

#### Domain Search

- Not available, what now?
- Have a Domain Squatter? <u>Next Steps</u>
- What if I've already purchased my domain from GoDaddy, Namecheap or another third party?
  - You can <u>connect almost any other third-party domain</u> to <u>your site</u>, as long as your provider offers access to *DNS* settings.
- Can I assign two domains to one web Design (i.e. ".com" & ".net")?
  - Yes! One will be your primary domain and the other will redirect to the primary.
